

Packages*

<u>Potability Package</u> Total Coliform Bacteria + E.coli (P/A) and nitrate as NO ₃	\$55.00
<u>Domestic Water Quality</u> Chloride, nitrate, hardness, conductivity, total dissolved solids, pH, iron, manganese, Total Coliform Bacteria + E.coli	\$190.00
<u>Alameda County Health Service Package</u> Total Coliform Bacteria + E.coli, chloride, nitrate, sulfate, total dissolved solids, color, odor, turbidity, copper, iron, manganese and zinc	\$225.00
<u>General Mineral (Modified)</u> Alkalinity, chloride, conductivity, hardness, pH, nitrate, sulfate, total dissolved solids, calcium, copper, iron, magnesium, manganese, potassium, sodium, zinc, and Total Coliform Bacteria + E.coli	\$260.00
<u>General Physical</u> Color, odor, turbidity	\$55.00
<u>Inorganic Contaminants (Shortlist)</u> Aluminum, arsenic, barium, cadmium, chromium, fluoride, lead, mercury, nitrate, nitrite, selenium and silver	\$250.00
<u>Phase V Metals</u> Antimony, beryllium, nickel and thallium	\$95.00
<u>Garden Irrigation Analysis</u> Alkalinity, boron, chloride, pH and total dissolved solids	\$135.00
<u>Corrosion Analysis</u> Alkalinity , pH, calcium hardness, temperature, total dissolved solids and Langlier Index	\$120.00

Packages*- Continued

Storm Water Analysis

pH, conductivity and total suspended solids	\$65.00
pH, conductivity, total suspended solids and total oil & grease	\$130.00
pH, conductivity, total suspended solids, total oil & grease, and total organic carbons	\$205.00

*Packaged Analytes Subject to Change. Check with your
Local Regulator

*Coliform bacteria should be tested twice per year, or
whenever there is a sudden change in color or taste*

LABORATORY MINIMUM IS \$55.00
